M. HUZAIFA ALI
Web Developer

As a web developer, my objective is to leverage my coding and web design expertise to create engaging and intuitive websites. I'm skilled in creating responsive and scalable websites, collaborating with teams, and staying up-to-date with the latest web development technologies. My goal is to help businesses achieve their digital objectives and provide value to their customers through high-quality web development solutions.

PROJECTS

PERSONADETECT FACE-RECOGNITION PREVIEW

- PersonaDetect project, an online web application utilizing machine learning and AI to detect faces in images.
- Utilized fullstack web development technologies including React.js, Node.js, and PostgreSQL.
- Implemented user authentication system allowing for registration, login, and image submission tracking.

ROBOFRIENDS   PREVIEW

- Robofriends, a responsive web application using React.js for users to search and view profiles of robot characters.
- Utilized Robohash API to generate unique robot images for each profile.
- Implemented real-time search functionality based on name.
